

# ZIPPERS · APPLICATION AND CARE INSTRUCTIONS

---

## THE APPLICATION OF ZIPPERS

---

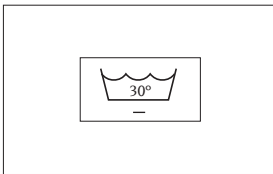

No special equipment is required to process Strass-studded zippers.

Swarovski zippers can be processed in exactly the same way as all other commercial zippers.

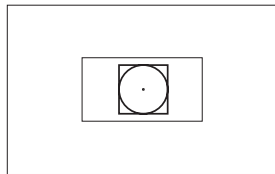

---

## CARE INSTRUCTIONS

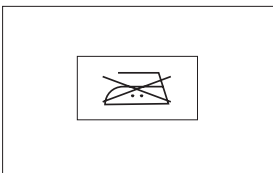

---

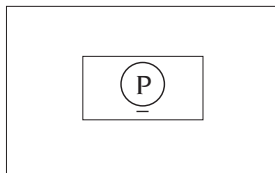

Turn inside out before washing and select a mild wash cycle and a mild detergent. To ensure, that the Zippers will not be damaged during the washing process, use a soft washing bag.

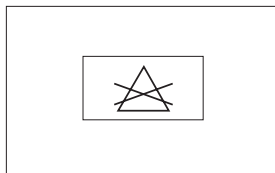

Turn fabric inside out before drying. Dry at a warm temperature = with reduced thermal load. To ensure, that the Zippers will not be damaged during the drying process, use a soft washing bag.

Do not iron!

Perchloroethylene cleaning possible.

Do not use chlorine bleach!
